What is DigiLocker?

Dedicated personal storage space, linked to each resident's Aadhaar number. DigiLocker can be used to securely store e-documents as well as store Uniform Resource Identifier (URI) link of e-documents issued by various issuer departments. The e-Sign facility provided as part of DigiLocker system can be used to digitally sign e-documents.

How does DigiLocker work?

To Sign-up for the DigiLocker you need to have an Aadhaar and mobile number registered with Aadhaar. Type your Aadhaar number and the captcha code. After clicking signup button, an OTP (One Time Password) will be sent to the registered mobile number and email-id. Enter OTP and click on "Validate OTP" button to complete the sign up and login.

How is DigiLocker going to help me?

It will minimize the use of physical documents and will provide authenticity of the e-documents It will provide secure access to Govt. issued documents. It will also reduce administrative overhead of Govt. departments and agencies and make it easy for the residents to receive services
